The Recruitment Team
International Rescue Committee (IRC),
Nigeria.

Dear Sir/Madam,

Application for Internship Position – Administrative Support

I am writing to express my interest in the Administrative Support Internship position at the International Rescue Committee (IRC). With a background in Computer Science and a keen interest in contributing to humanitarian efforts, I am confident in my ability to provide effective administrative and technical support to your team.

I hold a **National Diploma in Computer Science** from the Federal Polytechnic, Mubi, where I gained hands-on experience in various administrative and IT-related tasks, including data entry and analysis, document management, scheduling, and the use of standard office software applications. These experiences have equipped me with practical skills relevant to supporting administrative functions in a dynamic organization.

During my studies, I also developed strong communication, teamwork, and organizational skills through participation in student projects and leadership roles. These qualities, combined with my ability to adapt quickly to new systems and processes, make me a strong fit for an internship opportunity at IRC.

I am particularly motivated by the IRC's mission to provide support to communities affected by crisis and conflict. It would be an honor to contribute my technical and administrative skills to help achieve these goals.

Attached is my résumé for your review. I would welcome the opportunity to discuss how I can contribute to your team and am available for an interview at your convenience.

Thank you for your time and consideration.

Yours faithfully,
Mbicho Peter

WORK EXPERIENCE

Afabros Computer College, Mubi

Position: Computer Instructor (Application Packages & Programming)

Duration: October 6, 2023 – January 27, 2024

Achievements and Responsibilities:

- Taught students the use of application packages such as Microsoft Word, Excel, PowerPoint, and Access.
- Provided hands-on training in basic and intermediate programming using languages such as Python, HTML, and JavaScript.
- Assisted in developing simple projects for students to apply what they learned in programming.
- Guided students in file management, formatting documents, and basic computer operations.
- Conducted regular practical sessions to improve student confidence and digital skills.
- Maintained and updated software used in the computer lab to ensure smooth teaching and learning.
- Supported students in debugging and troubleshooting code during programming classes.
- Helped prepare and mark computer-based assessments and programming exercises.
- Provided basic technical support to both students and staff in the lab environment.
- Encouraged students to engage in creative thinking and independent coding practice.
- Performed any additional IT or teaching duties assigned by the college management.

4G Peter Digital Solutions

Position: Co-Founder & Manager

Duration: May 2017 – Present

Achievements and Responsibilities:

- **Entrepreneurship:** Identified a business opportunity and co-founded a digital services venture (Cyber Café & ICT Hub), offering high-speed internet access, digital printing, computer-based services, and sales of PC accessories.
- **Customer Service:** Provided services like online registrations, result checking, JAMB/WAEC/NIN services, CV typing, document scanning, and lamination.
- **Technical Management:** Oversaw the daily operations of the café, including system setup, software maintenance, and internet configuration for customer use.
- **Marketing and Branding:** Handled the business branding and digital marketing through social media platforms to attract more clients and maintain online presence.
- **Staff Management:** Supervised a small team (up to 3 staff), coordinated shifts, assigned tasks, and ensured excellent customer experience.
- **Business Development:** Conducted market research to improve services and introduced new offerings (e.g. mobile phone charging, online training sessions) to increase profitability.
- **Financial Management:** Monitored income and expenses, priced services competitively, and managed procurement of internet and printing consumables.

Student Entrepreneurship Development Centre (SEDC)

Position: ICT & Business Training Facilitator

Duration: June 2018 – February 2019
